EXPECTATIONS

I would appreciate working as a full stack in the future but I know that I will most likely work as a front-end developer or data analyst, or something related to databases and my workspace will be remote, I hope.

ABOUT ME

I am a web developer focused on front - end with solid knowledge of design and user-friendly, visually attractive and efficient interfaces on all platforms. Knowledge of tools and frameworks for a more optimal and flexible development of the application to develop quickly.

I am a person with great adaptability to the work environment, in continuous learning, with a pretty good english level and willing to accept advice from my colleagues. I excel at teamwork, whether leading or following orders, always seeking a healthy and efficient environment
